

Wax Block - 2" x 3" (Qty 5) PRT-14903

This is a five pack of two in by 3 inch wax machining blocks designed by Carbide 3D for your Shapeoko or Nomad CNC mill. Machining wax is a unique prototyping tool that is made specifically to stand up to the stresses of a CNC mill while still being able to be cut very quickly and hold even tiny details.

These wax blocks are ideal for verifying CNC machining programs are functioning correctly, learning how to use a CNC without sacrificing valuable resources, or creating fun designs.

Includes

- 5x Wax Block

Features

- Dimensions: 2in x 3in x 1in
